

COAD is presenting speed door in 2016 vietfood & Beverage-Propack Vietnam

입력 2016.11.08 10:35

COAD will participate in '2016 Vietfood & Beverage-Propack Vietnam' held in Hanoi, Vietnam from November 9th to 12th.

The exhibition is an international exhibition with more than 45,000 visitors, and COAD will present various speed doors that food factory companies might be interested in.

COAD's industrial automatic door is boasting excellent sealing power. COAD-1, the basic type industrial automatic door, is strong in the wind. Because its combination of wind bar and a wind bar locking device in the frame.

COAD-3 is a self-repairing type automatic door made of zipper type. It is normally locked tightly. When a collision occurs, the zipper is opened. Because it is a recovery type, it has the advantage of low maintenance cost.

Prior to the exhibition, COAD participated in the International Packaging Exhibition in Indonesia last month and gained a great response from the visitors.

COAD official said, "We will introduce an excellent industrial automation door in this exhibition that various countries interested such as Vietnam, China, Indonesia, Malaysia, Thailand, Taiwan." and "In particular, hot country such as Indonesia, Malaysia and Thailand are expected to show great interest in the COAD's automatic doors. Because it is important to maintain the internal temperature of the plant."
